

Meeting Agenda - 20120730

Location: The student union building
Date: Monday, 2012-07-30
Time: 17:00
Facilitator: Madeleine Appert
Participants: Madeleine Appert, Cecilia Edwall, Isabelle Frölich and Johan Gustafson

Objectives

Give each other status updates. Discuss what is left to do in the project. If new tasks appear, divide the work load.

Reports

Last meeting was cancelled.

Isabelle has experienced a lot of problems with the Git Bash and has therefore been working more on getting it to work rather than working on the code.

Madeleine has been working with the domain part of the code. She thinks it is pretty done, but might have to adjust a few things.

Cecilia has refined the documents. She has been comparing the documentation of this project with other, to make it as good as possible. Some unnecessary text has been removed. The SDD is done.

Johan has been on vacation. He has realized that the current file system is not sufficiently organized. He is eager to take on that task.

Discussion items

1. How will we the files?
 - One folder for meeting documentation.
 - One folder for the documents concerning the project.
 - One folder for the code.
2. What is left to do? Who will take on what tasks?
 - Isabelle needs to get to work with the GUI.
 - The domain is roughly done. As the GUI proceeds, we might notice some things that need to be changed. Madeleine will in those cases take on that work.
 - The RAD document still needs a work over. Cecilia will do that.
 - Organisation of the folders and files is also still to be done. Johan will do this.
 - All documents are also to be PDFs. Johan will do this too.
3. How does our time schedule look?
 - Within next week, Sunday the 5th.
4. When shall next meeting take place?
 - Eventually on Wednesday the 1st, at 13:00, depending on the progress of the project.
We w

Outcomes and assignments (5 min)

- We have finally made Isabelles Git Bash work properly.
- Status update has been given, everybody feels pretty good about the current situation.

- The organization of the project has been discussed and we have agreed on rearranging the file system.
- Adjusted the time schedule and prolonged the deadline.
