Meeting Agenda

Location: Edit- house, room 6209

Date: Thurday, 15/3 -12

Time: 10.00-13.00

Facilitator: *Isabelle Frölich*

Participants: Madeleine Appert, Cecilia Edwall, Isabelle Frölich, Johan Gustavsson

1. Objectives (5 min)

   Solve the problems with the use cases(text).

2. Reports (15 min)

   We now understand how the domain model works and we have started building it.

3. Discussion items (35 min)

   1. We discussed and decided which classes we need for the project.

   2. Delegate the classes evenly between the members of the group.

4. Outcomes and assignments (5 min)

   1. Madeleine should finish the RAD and begin coding the classes assigned to her (Card, Timer and Piece).

   2. Cecilia has been delegated a use case to work with and she should begin with the classes assigned to her (Team and Challenge).

   3. Johan should begin with the classes assigned to him and is responsible for the use case text document (Bet and Misson).

   4. Isabelle should begin with the classes assigned to her and has been delegated a use case to work with (Board, Tile and C.A) .

5. Wrap up

   1. How the different classes should interact.

   2. Discuss which classes should interact and follow up on the use case(text).
